Large Vessel Tax Exemption Hearing Set

Determined to spur employment in California shipyards, Assemblyman Vince Thomas of San Pedro, is pressing his measure to exempt the construction of vessels over 50 tons from the state sales tax. Thomas announces that the measure (AB 81) has been set for hearing March 19 before the assembly committee on revenue and taxation in Sacramento, and expressed confidence that the measure will receive approval of the lawmakers. Thomas explained:

"THIS MEASURE will have considerable effect in encouraging the construction of ships in California's splendid shipyards, and at the same time provide jobs for many thousands of workers in the ship-building trades." He added that a measure which he sponsored at the 1958 session has already "proven valuable in encouraging ship-building in California." This bill exempted vessels of over 1000 tons from the state sales tax.

MEANWHILE, Assemblyman Thomas has held several conferences with Governor Edmund Brown and administration leaders on measures to benefit the 68th assembly district.

He expressed gratification over the initial success of the administration program for repeal of the cross-filing law and the FEPC measures in the lower house. Thomas expressed confidence that the measures will win senate approval.
